Career objective

I am a passionate Front-End Developer eager to build dynamic and user-friendly web applications. My goal is to become a successful web developer and software engineer by continuously learning and growing in the field.

Skills

Technical Skills:

- Front-End: HTML5, CSS3, Tailwind CSS, JavaScript, React.js, Next.js
- Back-End: Node.js, Express.js, MongoDB
- Other: Git, GitHub, REST API, Firebase, JSON, Responsive Design

Interpersonal Skills:

- Team Collaboration
- Problem-Solving
- Effective Communication
- Time Management & Adaptability

Education

Rajshahi University of Engineering & Technology(RUET)

March 2022 – Present

BSc in Electronics & Telecommunication Engineering (ETE)

Projects

1. Asset Flow [Asset Management System]

Links: [Live Link](#) & [GitHub](#)

Project overview : AssetFlow is a web app that helps HR managers assign, track, and report on company assets. It allows employees to request and return assets with automated notifications for efficiency.

Features :

- Asset Assignment: HR managers can assign and track assets to employees in real-time.
- Subscription Plans: Businesses can choose from various plans for flexible asset management.
- Report Generation: Generate PDF reports for asset distribution and usage.

2. Gaming Groove : A Game Review Application

Links: [Live Link](#) & [GitHub](#)

Project overview : Gaming Groove is a game review app that allows users to browse, share, and manage reviews. Built with React, Firebase, and MongoDB, it features secure login, user dashboards, and a watchlist.

Features :

- Game Reviews: Browse detailed game reviews with descriptions and ratings.
- User Dashboard: View, edit, or delete your reviews.
- Watchlist: Save games for future reference.

3. Next Blog - A Blogging website

Links: [Live Link](#) & [GitHub](#)

Project overview : Next Blog is a responsive blogging platform with user authentication, wish-list management, and commenting. Admins can manage content, and the site is optimized for all devices.

Features :

- Dynamic Blog Listings: Browse and filter blogs by category, or search by title.
- User Interaction: Save blogs to a wishlist and comment on posts (excluding your own).
- Admin Controls: Admins can add, update, or delete blog posts easily.
